FILM MAKING

SATURDAY 25 FEBRUARY

Have you ever wanted to learn how to make a short film? Do you want to know what is involved behind the camera? Learn about the film making process from script and storyboards through to filming and directing with professional equipment. The workshop will take you through each of the stages and end with you filming your very own short film.

DIGITAL FILM EDITING

SATURDAY 24 MARCH

Do you have a video camera but never know what to do with your footage? Are you interesting in learning how to tell a story? Learn how to edit in creative and dynamic ways, build a story, add titles & music and export it ready for sharing online via Facebook, YouTube, etc. The course aims to teach the basics of the whole editing process allowing you to then go away and create your own films to a high standard. (Participants required to bring laptops for this workshop)

Workshops run 10am-3pm. £45 each or £80 if you book both sessions.
